Re: Impact of Coronavirus on X-ON ELECTRONICS Operations

Dear Customer:

X-ON ELECTRONICS is closely monitoring the impacts of the coronavirus in China and elsewhere. At present, we anticipate only minimal impacts on our supply chain and our ability to deliver products to our customers. None of the X-ON ELECTRONICS' facilities are located in a quarantined area.

The situation, however, is fluid and could change on short notice. We are evaluating potential impacts on shipping and are therefore tracing ancillary supply chains. If delays are announced, our support staff will notify any customers that it may effect well in advance.

X-ON ELECTRONICS is committed to ensuring the integrity of its customers' supply chains and will make every effort to avoid or minimize any disruption.

If you have any questions or for further information, please do not hesitate to email sales@x-on.com.au

Sincerely

Rob Tincey

Director

X-On Electronics
